

12<sup>TH</sup> ANNUAL  
**HOMELAND  
SECURITY WEEK**

October 24-27, 2017  
Renaissance Washington, D.C. Downtown Hotel

**Building Partnerships. Protecting Citizens. Securing the Nation.**

**NO COST TO ATTEND FOR FEDERAL GOVERNMENT AND ACTIVE MILITARY PERSONNEL!**

Dear Colleague,

This year we have experienced over 596 terrorist attacks with over 4,044 fatalities\* with 6 months to go. How many more acts of terrorism are to come? Homeland Security Week is designed to provide the necessary dialogue to help drive homeland security initiatives and protect against anymore tragedies.

We are living during complex times with growing advancements in technology alongside the global presence of evolving terrorists operations. When we discuss homeland, a myriad of questions come to mind, but **two questions stand out; Are we safe and are we prepared?** Florida, Colorado, Virginia might say otherwise after falling victim to acts of terror earlier this year. It is imperative that our homeland is protected from an array of threats such as illegal border crossing, smuggling, cyber hacks, chemical, biological, nuclear, radiological threats, UAS and maritime threats.

The **12th Annual Homeland Security Week** will bring together 300+ individuals ranging from DHS officials, industry executives, elected officials, and academia from across the U.S. and global stakeholders to discuss the challenges at the forefront of homeland security operations, policy and procurements. Key themes running throughout the summit will be on **border management and surveillance, cyber security and protecting critical infrastructure, processing, exploiting and disseminating intelligence and ISR platforms, safe cities and information sharing** between state, local and federal agencies.

During the week you will have the opportunity to learn, share and connect with thought leaders to discuss DHS priorities, the latest budget highlights and where investments are being made to keep our homeland safe. With interactive discussion groups and panels you will have the opportunity to be part of the summit sharing your expertise whilst **learning about the agencies strategies, requirements and future acquisitions**. International thought leaders will be participating this year to share their experience and challenges as they deal with acts of terrorism from across the world such as the ones in Manchester, Paris, Stockholm, Berlin, Brussels, London and partnered nations.

We look forward to welcoming you to the community's conference to support homeland security.

See you there!

Respectfully,

*p.s. don't forget to check out pg 8 to see the endless networking experiences we have included in this year's program!*

# INTERESTED IN SPONSORING?

## NETWORKING:

Ensure that you have the opportunity to engage with the key decision makers within your industry. We can create a platform for you to effectively interact with your top customers and prospects in the environment of your choice. This can range from formalized private meetings / workshops right through to less structured networking events such as sponsored drinks receptions, coffee breaks or lunches. Ultimately whatever you decide is the right forum; we will support you in your quest to advance relationships with the key people who can influence the future of your business.

## BRANDING

Your company can be elevated to a position where they are seen as a market leader. In a fiercely competitive market you need to ensure that your brand is differentiated from the competition. Failure to create a clear identity will see your organization fade into the background. We ensure that we do everything we can to effectively lift your brand before, during and after the event. Not only do we create a fully integrated marketing campaign, which your company can be part of, but we also offer high impact premium branding opportunities for example on bags, water bottles, pens lanyards etc.

## THOUGHT LEADERSHIP

If you think that you should be viewed as a true industry leader then your need to demonstrate your market knowledge and expertise through a thought leadership opportunity, such as speaking or chairing. This is a highly unique opportunity for your company to educate the market, and as long as you are credible enough to fit into a high level event program, we can position your organization alongside top customers and prospects in our speaker faculty. As part of this speaker faculty your company will be set apart from other industry attendees giving you the competitive edge required to make further strides in the market.
